

2010 CCS National Workshop Initiative

Shaping the Future of Heart Failure Management in Canada

The Many Different Faces of Heart Failure

**13th Annual International
Toronto Heart Summit**

Four Seasons Hotel
Toronto, Ontario

Friday, June 11th, 2010

12:50 – 2:20 p.m.

Chair: Justin A. Ezekowitz, MBBCh MSc FRCP

Faculty: Robert S. McKelvie, MD, PhD, FRCP
Gordon Moe, MSc, MD, FRCP(C), FACC

In the spirit of continued collaboration with the Annual Toronto Heart Summit Conference, the 2010 CCS National Workshop Initiative, under the auspices of the CCS Heart Failure Guidelines Program, is pleased to present its 5th annual heart failure workshop. This highly interactive, case-based heart failure workshop which focuses on the 2010 update of the CCS heart failure guidelines will address the following topics from a clinical perspective, providing a user-friendly and practical approach to heart failure care:

1. Heart Failure and Ethnic Minorities
2. Heart Failure and Pregnancy
3. Disease Management in Heart Failure

The CCS heart failure workshops at the Toronto Heart Summit 2009 confirmed delegates want more cases on more complex heart failure patient profiles. Our 2010 workshop offering is a direct consequence of this important delegate feedback and aims at engaging Canadian health care professionals, physicians, trainees, nurses and pharmacists, in the establishment of benchmarks and ongoing improvements of the complex care of your heart failure patients.

Your participation and contribution have been and continue to be instrumental to CCS's commitment to establishing, promoting and assessing evidence-based recommendations for the treatment of heart failure in Canada.

Please join us on Friday, June 11, 2010 at the 13th Annual International Toronto Heart Summit.
